The publishers earnestly request the bringing to their attention of any inaccuracy so that it may be corrected in the next edition of the directory.

Hill Directory Co.. Inc, Publishers

INTRODUCTION
AND
GENERAL INDEX

HILL DIRECTORY CO., Inc., publishers of Southeastern Directories, present to subscribers and the general public, this, the 1949 edition of the Gastonia City Directory, which also includes Arkray Mills Village, Arlington Heights, Arlington Mills Village, Armstrong Development, Brookwood, Dixon Mills Village, Fairmont Park, Flint Mills Village Nos. 1 and 2, Forest Hill, Groves Mills Village, Hillcrest, Linwood Park, Mutual Mills Village, Myrtle Mills Village, Osceola Mills Village, Ruby Mills Village, Seminole Mills Village, Victory Mills Village, West View Heights and Winget Mills Village.

Confidence in the growth of Gastonia's industry, population and wealth, and in the advancement of its civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Gastonia to the world.

The enviable position occupied by HILL'S Directories in the estimation of the public, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty co-operation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Gastonia Directory will fulfill its mission as a source of authentic information pertaining to the community.

Four Major Departments
(Each department beginning with Page 1)

The four major departments are arranged in the following order:—

I. THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns is the first major department, printed on white paper. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of Gastonia and vicinity, and the name, official personnel, nature and address of each firm and corporation.

II. THE BUYERS' GUIDE, the second major department, printed on goldenrod paper, contains the advertisements of leading manufacturing, business and professional interests of Gastonia and vicinity. The advertisements are indexed under headings descriptive of the business represented. This is reference advertising at its best, and merits a survey by all buyers eager to familiarize themselves with sources of supply. In a progressive community like Gastonia, the necessity of having this kind of information immediately available, is obvious. General appreciation of this fact is evidenced by the many reference users of this City Directory service.

593291

III. THE CLASSIFIED BUSINESS DIRECTORY is the third major department, printed on yellow paper. This department lists the names of all business and professional concerns of the whole community in alphabetical order under appropriate headings. This feature constitutes an invaluable and indispensable catalog of the numerous interests of the community. The Directory is the common intermediary between buyer and seller. As such it plays an important part in the daily activities of the commercial and professional world. More buyers and sellers meet through the Classified Business Directory than through any other medium.

IV. THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE, on pink paper, is the fourth major department. In this section the named streets are arranged in alphabetical order, followed by the numbered streets in numerical order, the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Special features of this section are the designation of tenant-owned homes and the designation of homes and places of business having telephones.

Community Publicity

The Directory reflects the achievements and ambitions of the community, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a manufacturing site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Gastonia and vicinity.

The Gastonia Directory Library

Through the courtesy of the publishers of the Gastonia City Directory, a Directory Library is maintained in the offices of the Gastonia Chamber of Commerce, for free reference by the general public. This is one of more than 600 Directory Libraries installed in the chief cities of the U. S. and Canada by members of the Association of North American Directory Publishers, under whose supervision the system is operated.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

GASTONIA

"THE COMBED COTTON YARN MANUFACTURING CENTER OF AMERICA"

(Courtesy Gastonia Chamber of Commerce)

Statistical Review

Form of Government—City manager-council (Plan D).

Population—1940 U. S. Census for city proper, 21,313; Greater Gastonia, 33,487. Present estimated population, Gastonia, 24,000; Greater Gastonia, 39,000. American-born, 99.3 per cent. Predominating nationality of foreign-born residents, Greek.

Area—4.8 square miles.

Altitude—825 feet above sea level.

Climate—Mean annual temperature, 60.6 degrees F.; average annual rainfall, 45.87 inches.

Parks—4, with total of 61 acres, valued at $85,000.

Assessed Valuation—$26,353,773, with $1.25 per $100 tax rate.

Bonded Debt—$2,103,000 gross; $976,120 net.

Financial Data—2 banks, with total assets of $31,539,628 (Dec. 31, 1948). 2 building and loan associations, with total assets of $4,129,000 (Dec. 31, 1948).

Postal Receipts—1930, $65,841.25; 1940, $102,002.45; 1948, $289,711.03.

Telephones in Service—7,200.

Churches—29, representing 12 denominations.

Industry—Chief industry of city and surrounding territory is textile manufacturing. Total of 138 manufacturing plants of all classifications, with annual payroll of $30,000,000. Principal manufactured products: Cotton yarn, textile machinery, sewing thread, tire fabric, motor oil filters, and numerous other textile and miscellaneous products.

Trade Area—Retail area has radius of 25 miles, with over 250,000 population.

Newspapers—1 daily, Gastonia Gazette; circulation, 18,201.

Radio Stations—WGNC, 250-watt, dial 1450; WLTC, 1,000-watt, dial 1370.

Hotels—4, with total of 240 rooms.

Railroads—3: Southern, Carolina & Northwestern, and Piedmont & Northern (electric).

Highways—U. S. 29, 74 and 321.

Airports—1 landing field on outskirts of city, 1 airport, and 2 airports near Charlotte, about 15 miles distant.

Amusements—Largest auditorium in city seats, 1,654 persons. 5 motion-picture theatres, with total seating capacity of 3,200 persons. 2 golf courses.

Hospitals—4, with total of 294 beds.

Education—10 public schools, with 6,551 pupils enrolled, and 201 teachers. Value of public school property, $1,750,000.

Public Libraries—1, with 44,618 volumes and 367,209 circulation.

City Statistics—Total street mileage, 60, with 38 miles paved and several miles under construction. Miles of gas mains, 87; sewers, 74.2. Number of water meters, 6187; light meters, 5,849; gas meters, 1,556. Capacity of water works, 4,500,000 gallons; daily average pumpage, 4,000,000 gallons; miles of mains, 102; value of plant, $1,182,380. Number of fire hydrants, 447; street lights, 809. Fire department has 32 men, with 2 stations and 6 pieces of motor equipment. Value of fire department property, $72,000. Police department has 40 men, with 1 station and 7 pieces of motor equipment.

History and Location

The area of which Gastonia is the trade center began to be settled about the year 1735 by Scotch-Irish and Germans who had previously settled temporarily in Pennsylvania. These sturdy pioneers were attracted by the genial climate, the numerous springs and streams, and the fertile, virgin soil. It should be said in testimony of their fairness and right living that the powerful tribe of Catawba Indians, into whose midst the settlers came, assumed a friendly attitude toward their white brothers and often fought with them against other Indian tribes and also in their conquests for freedom during the Revolutionary War. It is not surprising to find from the pages of history, therefore, that the battle of Kings Mountain, the turning point of the Revolutionary War, should have been fought twenty miles from Gastonia by those early pioneers who prized their religious and political freedom so highly.

Romantic Growth

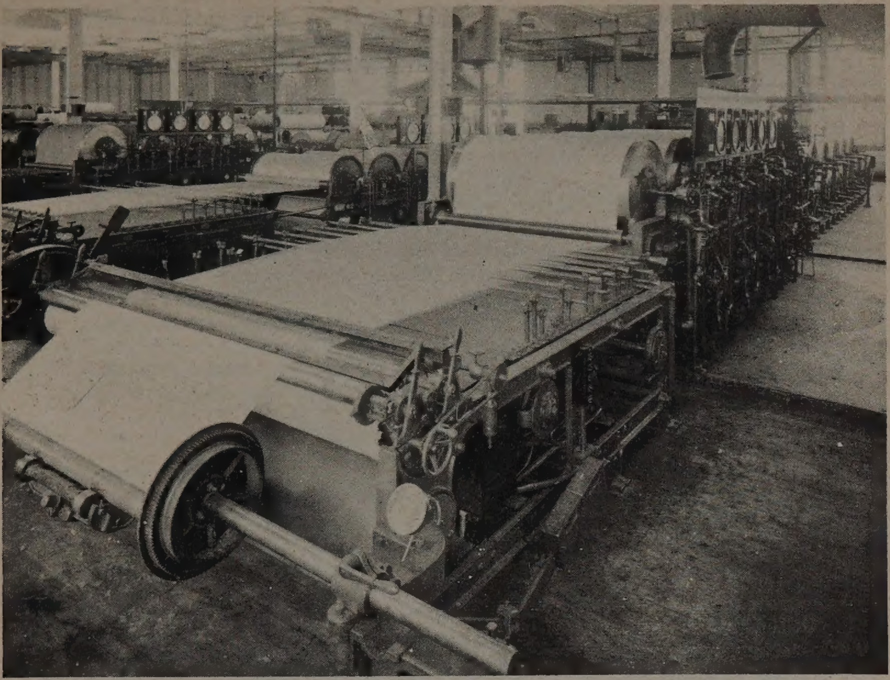
The manufacturing industry began to develop in this community in 1848 when the Mountain Island and Woodlawn cotton mills were built. During the next 24 years only one other industry came into being, and it was not until 1872, after the War between the States, that real industrial development began. In 1888 there were eight manufacturing plants in the county.

It was in 1872 that the first railroad was built through Gaston County, making available to the manufacturers of the area raw material supplies and the consuming markets of the world.

Gastonia was a cross-roads village in 1880, with a population of 236. It was incorporated as a town in 1877, and the charter was amended in 1910, changing the name from the Town of Gastonia to the City of Gastonia.

Each decennial census has recorded a marvelous growth in population. Population figures since 1880 have been as follows: 1880, 236; 1890, 1,033; 1900, 4,610; 1910, 5,759; 1920, 12,871; 1930, 17,093; 1940, 21,313; 1949 estimated, 24,000.

An aerial view of Gastonia's principal business district.



Machinery made in Gastonia Finds Its Way to the Far Corners of the Earth.

Gastonia is located on U. S. Highway No. 29 from Washington to Atlanta, which highway is frequently referred to as the Main Street of North Carolina.

Industrial Supremacy

Today Gastonia has 56 textile manufacturing plants, with 600,000 spindles, and an average daily payroll of approximately $91,000.

Gaston County at the present time has 134 textile plants, not to mention the various other smaller and allied manufacturing establishments.

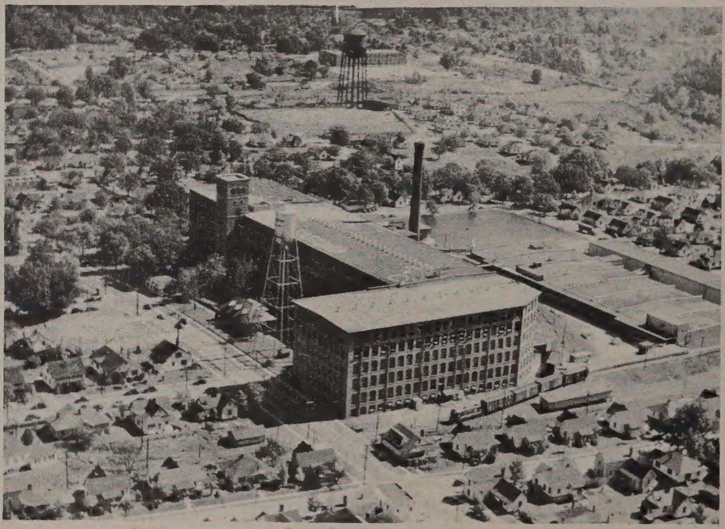
Today the sons of the early pioneers are still carrying on with native-born Americans as employees, with complete understanding of each other and an absence of friction in industrial relationship. According to the 1940 U. S. Census, only .7 per cent of Gastonia's population was foreign-born. This enviable position, together with other favorable factors of climate, location, etc., induced the Firestone Cotton Mills to locate their Southern tire fabric manufacturing plant in Gastonia in 1935.

Industrial products of the county include: Cotton yarns, tire fabric, textile machinery, sewing thread, bedspreads, crocheting and knitting yarns, labels, gears, weavers' knotters, roller covering, dress goods, sheeting, leather belting, silk, rayon, mattresses, furniture, textile supplies, hosiery, shoe laces, Army uniform cloth, motor oil filters, damask, carbon manifolds, novelties, industrial paper products, and other articles.

Transportation and Utilities

Gastonia is on the main double-track line of the Southern Railway from New York to New Orleans and is also served by the Carolina & Northwestern and Piedmont & Northern railways. Also serving Gastonia are several highways, including U. S. Highway No. 29, the "Main Street of the South" and U. S. No. 321. Three bus lines and numerous motor-freight and express companies operate in all directions from Gastonia. Gastonia is only twenty minutes from the Charlotte airport, which is served by the Eastern Air Lines from New York to New Orleans. These facilities provide convenient and rapid transportation of passengers, freight and express in a few hours to the great centers of the U. S. Gastonia has one landing field on the outskirts of the city and one airport, and there are two airports near Charlotte about 15 miles distant from Gastonia.

Industry cannot thrive without adequate power, and in this respect Gastonia is particularly fortunate. In close proximity to the Duke Power Co., with several of its mamouth hydro-electric and steam auxiliary plants located in Gaston County, ample electric power is available at low rates. The quality of service available and the economical rates for users of electricity are highly important factors in considering Gastonia as a place of residence, or for the location of a business or industry.



One of the largest tire fabric plants under one roof in the world, located in Gastonia.

Pollock's
SHOES

Familiar Scenes in Gastonia's Business District.

Photos by Harley Ferguson.

Financial Features

North Carolina has no ad valorem property tax. The City of Gastonia rate is $1.25 per $100, and the Gaston County rate is 75¢ on $100 valuation. With municipal property valued at over $2,600,000. Gastonia has a net bonded debt of $976,120.

Gastonia has an adequate and modern water plant with clear water source.

Electricity is purchased wholesale from the Duke Power Co. and retailed by the City to residential and industrial users. Users outside the city are served direct by Duke Power Co.

The average fire loss during the past five years has been less than the expenses of the Fire Department, and the per capita fire loss is far below the national average.

Closely allied with the city's favorable financial position in reference to industry, there should be mentioned also North Carolina's stable government which is fair to capital, fair to labor, and possesses a sympathetic understanding of industry.

Gastonia's financial institutions, consisting of two strong national banks and two thriving building and loan institutions, afford ample facilities throughout this trade area.

Civic Life

The moral atmosphere of any city is indicated by the facilities which it has provided for religious worship. Gastonia is a church-going city, with 29 churches representing practically all the well-known denominations—Protestant, Catholic and Jewish.

Gastonia is also proud of its school system, which consists of ten modern school plants, with property valuation of $1,750,000, and an enrollment of 6,551.

Gastonia has two splendid general hospitals for white people and one for Negroes. In addition, there is located here the North Carolina Orthopedic Hospital, the only State-owned and State-maintained institution of its kind in the Southern States. It has provisions for inmates of both races.

Gastonia has one modern hotel and several smaller hostelries, several large apartment houses, and a number of good private boarding houses. Five modern theatres, with total seating capacity of 3,200, afford ample amusement facilities.

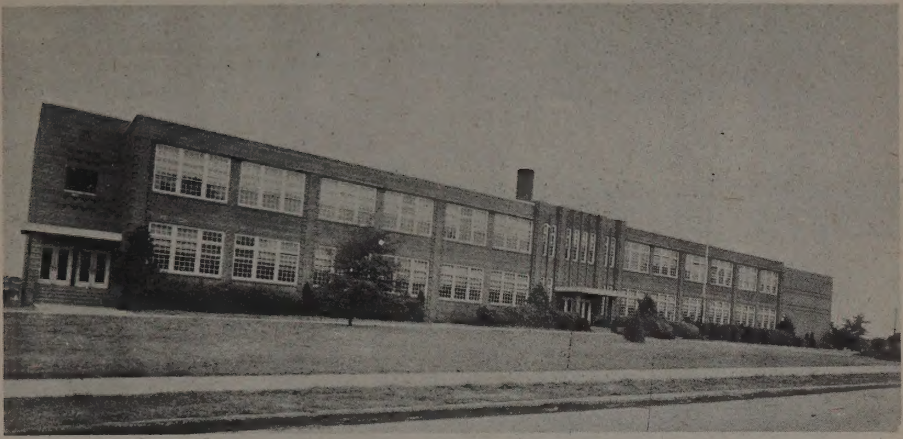
The value of healthy civic clubs is thoroughly appreciated in Gastonia. Strong units of Rotary, Kiwanis, Civitan, Lions, Optimists, Altrusa and Pilot clubs are rendering valuable service to the city. An elegant club building is owned by the Gastonia Woman's Club, and the leading fraternal organizations are represented. A splendid clubhouse, golf courses, swimming pools, tennis courts, parks and playgrounds afford ample opportunities for healthful recreation.

For the prospective resident, Gastonia is favorably situated in many ways. While the city is located near the busy marts of trade, in less than three hours of travel by automobile a Gastonian can be in the incomparable scenery of the mountains of western North Carolina, the "Land of the Sky." In three hours he can journey to the famous Pinehurst and Southern Pines winter resorts. The famous Atlantic beaches can be reached in five or six hours. One night of travel will place him in most of the big Eastern cities.

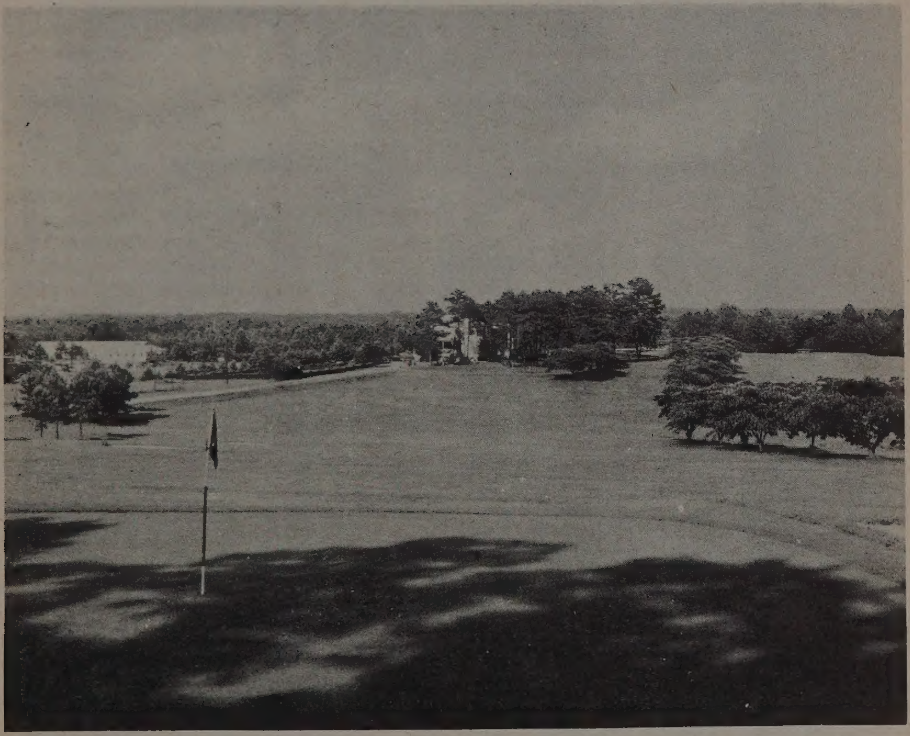
Trade Area

Based on the 1940 U. S. Census, the population in a 75-mile radius of Gastonia was approximately 1,700,000.

Although the trucking industry has been developing rapidly, Gaston County still imports thousands of dollars' worth of food that could be raised profitably in the county.

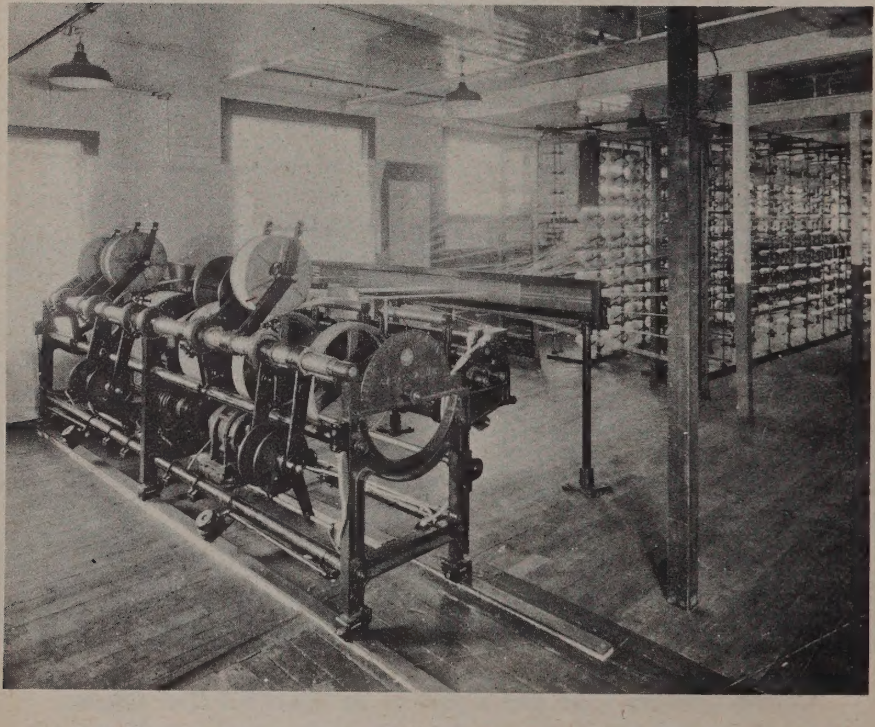


One of Gastonia's modern up-to-date Junior High Schools.



Gaston Country Club and a part of its beautiful Golf Course.

Gaston County Dairy Herd.



Machinery made in Gastonia finds a market throughout the civilized world.

Opportunities

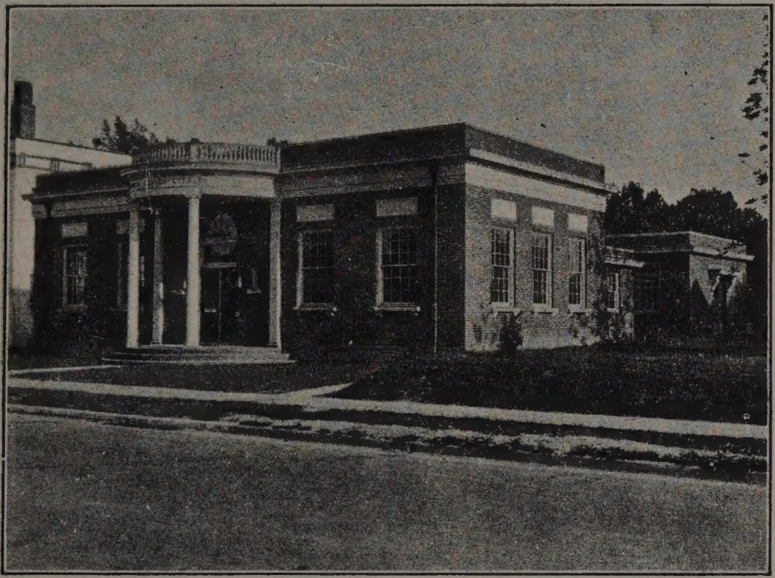
The city's industrial population challenges the farmers of the county to grow food and feed crops.

Dairying and poultry farms have made notable strides in the last few years, but the possible field of development has just begun.

Fruit-growing has become an important item in Gaston County. No finer peaches can be grown anywhere, and an ample market is close at hand.

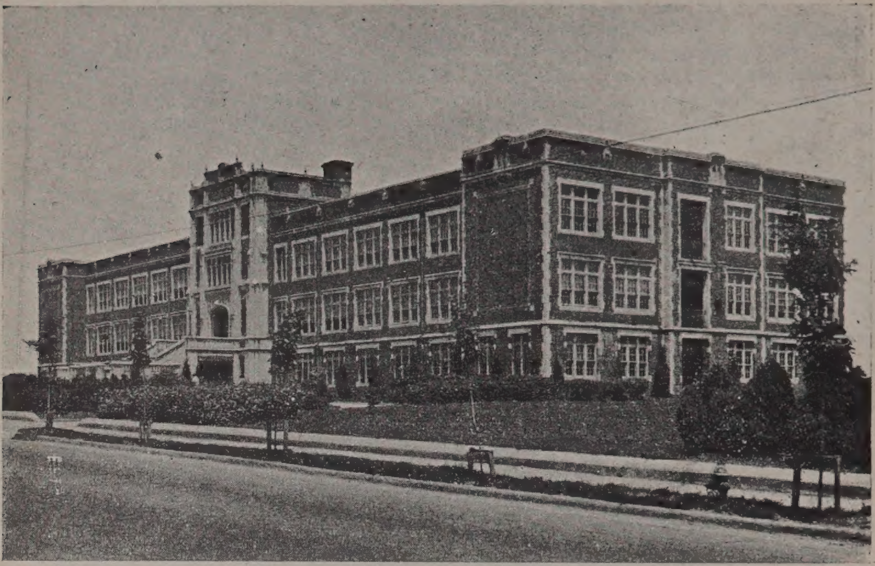
The natural advantages which induced the pioneer forefathers to locate here still exist and, with the addition of the vast industrial empire and the phenomenal growth in population, the advantages have been augmented.

The above legend is only a brief summary and contains only a few of the high-lights of the many opportunities, industrial and otherwise, that exist today in Gastonia and Gaston County. Those desiring to take advantage of the opportunities offered by this hustling Piedmont city of the New South are cordially invited to write directly to the Chamber of Commerce at Gastonia.



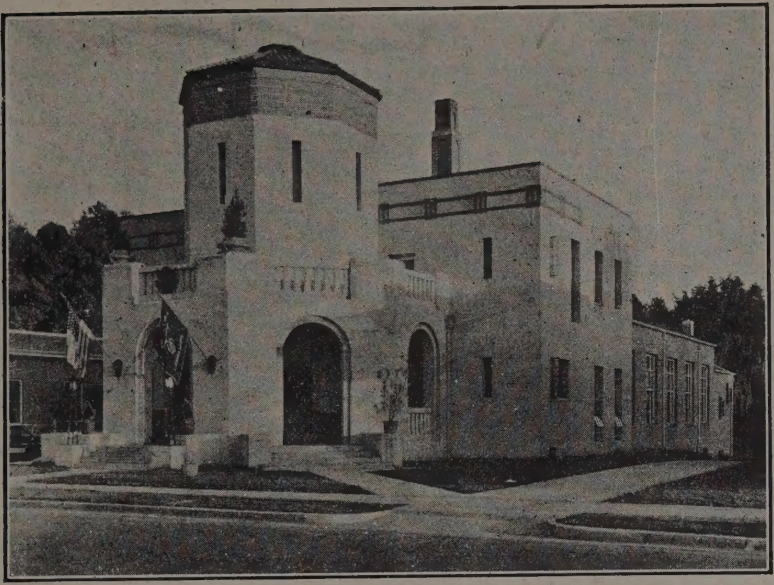
Gastonia's Splendid Public Library

Partial View of North Carolina Orthopedic Hospital

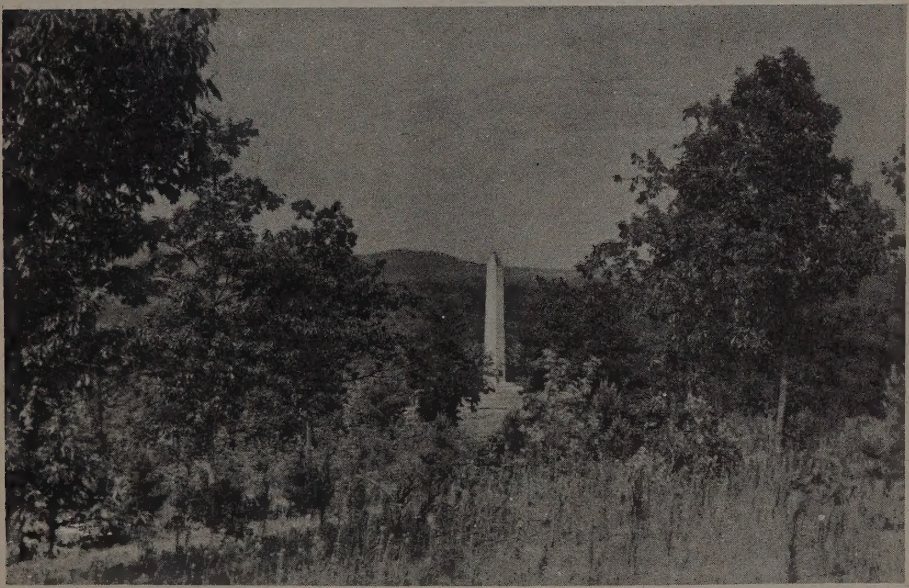


Gastonia's Magnificent New High School Plant, One of the Largest and Best Equipped in the State

The Only Cathedral Abbey in the U. S., Ten Miles East of Gastonia



Memorial Hall—Gastonia's Gift to Her Veterans of All Wars—Dedicated 1930



Twenty miles West of Gastonia is the National Military Park commemorating the Battle of Kings Mountain, considered the turning point of the Revolutionary War. Thousands of tourists visit this historic spot every year. This is a picture of the Battle Ground Monument.

Features and Departments of a City Directory

Your new, improved City Directory is the most complete and comprehensive catalog ever published of the inhabitants, business concerns and institutions of your city. It is much more than just an alphabetical list of names and addresses.

Your City Directory Contains:

1 An *Alphabetical* list of names and addresses of every resident, business concern and institution, plus wife's name and if a widow the deceased husband's initial, and the occupations of all. Principal officers or owners and a description of businesses are included as well.

2 A *Householders' Directory* including a Street and Avenue Guide. This section lists every street and where intersecting streets appear. It lists numerically every location on each street, naming the householder or business at each number and whether the person is a homeowner or renter and if he has a telephone. Similar information is provided on office and public buildings and their occupants.

3 A *Classified Business Directory* —listing every business, classified as to type, and showing names and addresses. It also lists every profession, club, society and association, hospital and cemetery, labor organization, library, park and playground and school.

4 A *"Yellow Section" or Buyers' Guide*, where the advertiser may explain in greater detail the services or products he has to offer.

5 A *Statistical and Historical Story* of your city; plus miscellaneous other information.

A Unique Service Provided By The Publishers of Your City Directory

The publishers of this Directory maintain for the use of their subscribers and the general public a complete library of late out-of-town City Directories. We invite you to consult this library when in need of names and addresses of individuals and firms in other cities. It is especially designed for the reference use of business men who subscribe to the local City Directory, when seeking markets and sources of supply outside this city. There is no charge except for extended continuous use. The library, with attendant in charge, is located at:

CHAMBER OF COMMERCE

★ ★ ★

When You Want to Know:

—where a person lives.

—what his occupation is.

—who lives at a certain number on a street.

—where a street is located.

—the correct spelling of a name.

—the officers of a corporation.

—the partners in a firm.

—the solution to any of scores of problems that pop up unexpectedly to annoy and baffle you.

—you can quickly find the answer in the City Directory.

Your City Directory has

HUNDREDS OF USES AND APPLICATIONS

BUYING

Learning new sources of supply.

Keeping up with known sources of supply.

Checking on the record of firms from which you buy as to dependability, stability, etc.

SELLING *(Including market analysis and sales promotion)*

Locating new markets.

Maintaining up-to-date mailing lists.

Analyzing the buying power of a community or street.

Routing salesmen to avoid lost motion in reaching prospects.

Locating residents of hotels and apartment buildings, many of whom are listed nowhere else.

Identifying names and titles of officials, for use of salesmen.

CREDIT REFERENCE *(and Collections)*

Running down delinquent debtors.

Checking credit applications as to address, moving habits, names of employers, stability of employment, family status, neighbors, whether owner or renter, etc.

Identifying persons of same or similar names.

Investigating cases in welfare, charitable, social service and legal work.

DELIVERY *Communication, Mailing, Etc.*

Routing deliveries.

Reducing dead letters and insuring more complete delivery of mail.

Effecting delivery of messages and parcels erroneously or defectively addressed.

Correcting names and titles.

LAW ENFORCEMENT *Criminal Detection and Apprehension*

Tripping bad-check passers.

Deciphering illegible signatures.

Guarding against habitual bill dodgers.

Tracing heirs and witnesses, settling estates, and establishing facts as of a certain date.

CASHIERS! TELLERS!
CLERKS!

Do your employers furnish you with the latest edition of the City Directory?

You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

WHY A BUYERS' GUIDE?

★ ***It is customary to include a Buyers' Guide in the City Directory because : : :***

It gives business firms the opportunity to elaborate upon a description of their products and services impossible in the limited space of regular Alphabetical and Classified listings.

The Buyers' Guide is a necessary supplement to the regular listings; it is good City Directory information . . . EXTENDED

FINE
FURNITURE

Does Not Necessarily Cost a Great Deal

The satisfaction gained from dressing up the home with modern furniture, carefully selected to fit each room, is ample repayment on the installment. Even a few pieces can alter and enhance the present ensemble; odd corners can be dressed up and made comfortably livable.

CASHIERS! TELLERS! CLERKS!

Do your employers furnish you with the latest edition of the City Directory?

You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

Please! Do Not Lend Your CITY DIRECTORY

IT COSTS YOU MONEY—Every Time It Is Loaned

The practice of lending your City Directory, in a great measure, is responsible for the increasing cost of Directory Service.

The reason is:—

There is a definite cost involved in the making of the DIRECTORY of Your City.

THIS COST MUST BE ABSORBED BY THE SUBSCRIBERS—BE THEY ONE—OR BE THEY 1000.

If there were but ONE SUBSCRIBER to the CITY DIRECTORY—THE ONE SUBSCRIBER would of necessity have to absorb THE WHOLE COST.

If there were 100 SUBSCRIBERS—each one would have to absorb 1/100th PART OF THE WHOLE COST.

If there were 1000 SUBSCRIBERS—each one would have to absorb 1/1000th PART OF THE WHOLE COST.

From which it is obvious that the GREATER the number of subscribers—the LESSER the cost to each.

And

It is also obvious that the LESSER the number of subscribers—the GREATER the cost to each.

Every time you loan your City Directory the LESS NECESSITY THERE IS FOR THE BORROWER TO SUBSCRIBE FOR THE SERVICE.

MORE BORROWERS result in FEWER SUBSCRIBERS which means INCREASED COST.

Directory of Householders, Occupants of Office Buildings and Other Business Places, Including a Complete Street and Avenue Guide

1949

Copyright, 1949, by Hill Directory Co., Inc,

In the following list the streets are arranged in alphabetical order followed by the numbered streets in numerical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

Figures following names denote number of persons living at that number.

The symbol ◎ following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

The ♤ preceding names denotes houses and places of business having telephones.

Figures in parenthesis denote old numbers.

(c) denotes colored.

This section includes some listings reading "No Return." In each case the Publishers tried deligently, by various means, to obtain the information for the occupants but were unsuccessful. First, two personal calls were made by an enumerator; next, a double postal card was mailed and the telephone used when possible.

(The numerals that appear at right edge of columns, ahead of street descriptions and some street intersections, are merely for the guidance of the publishers, and have no other significance)
